

For your safety, please read the following before using.

① Do not use corrosive fluid SUS 304, please confirm the specifications in detailed.
 ② Please use within the rating pressure range. Do not apply pressure beyond recommended maximum withstand pressure, permanent damage to the pressure sensor may occur.
 ③ Do not drop, hit or allow excessive shock. Even if pressure gage body appears undamaged, internal components may be broken and can cause malfunction.
 ④ This product is not explosion-proof rated. Do not use in atmosphere containing flammable or explosive gases.
 ⑤ When piping, suggest to use filters to increase product service life.
 ⑥ The product is complied CE certificate, but no surge absorber. If required, please find other way to solve.
 ⑦ Sensors at end-of-life must be disposed of in accordance with E-Waste regulations of the country/region, NOT disposed of with regular garbage.
